

## Being An Outstanding Early Career Teacher Mentor

### Course Overview

Supporting and developing early career teachers is critical to sustaining the profession, and their interactions through mentoring (formal and informal) with more experienced colleagues can make a vital difference to their confidence and impact in the classroom. This one day course is aimed at whole school induction and subject mentors and will provide an introduction to the new DfE Early Career Framework and focus on the development of mentoring practices and cultures which will bring professional learning to life.

### Details:

The course will cover

- An introduction to the Early Career Framework
- The role of mentoring in developing early career teachers
